

FrameFAST™

Structural Framing System

NEW Alignment Guide
Easy install with
Standard Cordless Driver

Changing the Way Framers Frame

The updated FrameFAST fastener is a heavy duty 6" framing screw engineered to secure roof trusses, wall studs & plates, and deck joists to carrying beams. One screw, multiple applications.

- **5x Faster:** Replaces commonly used hurricane ties and clips, installing in a fraction of the time¹.
- **ProjectLife™ Guarantee:** The performance and corrosion protection of FastenMaster FrameFAST is guaranteed for the life of the project. Approved for use in exterior applications including treated wood (ACQ). Not recommended for use in saltwater applications.
- **Easy to Install:** Featuring a TORX® tTap® drive system for wobble-free drive with no strip-outs.
- **Code Approved:** Tested to and certified for use along the continuous load path.
- **Easy Inspection:** The red head makes it easy to verify that the correct fastener being used.
- **Compatible with the FrameFAST Tool:** See reverse for details.

Notes:

¹ Based on side-by-side comparison using traditional hurricane tie for securing roof trusses to wall plate in a wood framed structure versus FrameFAST truss-to-top-plate connection. Time study information available at FastenMaster.com

Structural Framing System

The FrameFAST Screw is guaranteed not to rust or corrode for the life of the project.

The coating on this fastener has been tested in wood treatment chemicals, such as ACQ, and found to provide equivalent protection to code-approved hot-dipped galvanized coatings. Allowable design values for all continuous load path applications can be found in our published evaluation reports at FastenMaster.com. These reports, based on independent accredited third-party testing to ASTM and ICC-ES standards, can be used by design professionals to specify FrameFAST or substitute for existing connections.

FrameFAST Fastener	
Description	SKU
NEW 50 Pc. Box w/TORX Itap 2" drive bit	FMFFTT006-50
250 Pc. Bucket w/TORX Itap 2" & 6" drive bit	FMFFTT006B-250

The FrameFAST Installation Tool is the perfect companion to the FrameFAST Structural Fastener.

- 3 Interchangeable heads accommodate a variety of structural connections ensuring accurate installation angle, precise offset, and optimized thread engagement.
- Patented delivery system ensures correct installation angle and offset every time.
- Allows the worker to stand safely on the floor, eliminating the need for ladders, pneumatic nailers, and other safety hazards.

FrameFAST Installation Tools	
Description	SKU
FF Cordless DeWALT	FMFFTOOLT2TP-DWC
FF Cordless Milwaukee	FMFFTOOLT2TP-MILC
FF Coded Milwaukee	FMFFTOOLT2TP

Additional Installation Heads	
Description	SKU
Truss-to-Top-Plate Head	FMFFHEAD-T2TP
Stud-to-Plate Head	FMFFHEAD-S2P
Plate-to-Rim Head	FMFFHEAD-P2R

All FrameFAST Tools include (2) replacement TORX® Itap® drive bits and the FrameFAST Truss-to-Top-Plate head. Cordless tools do not include battery or charger.
